

WORKS NOTIFICATION

The NSW Government is investing \$673.3 million in health for the Tweed-Byron region, which includes construction of the new Tweed Valley Hospital. Health Infrastructure NSW has engaged Lendlease to construct the main hospital buildings. The new hospital is on track to open to patients in 2023.

New sewer connection, Cudgen Road – Saturday 19 June 2021

As part of the Tweed Valley Hospital project, works are required to connect an existing sewer line on the eastern side of Cudgen Road to a new connection within the hospital site. This will involve excavation at the existing sewer main location and trenching works across Cudgen Road. This work will be undertaken by Tweed Shire Council on behalf of the project.

To maintain safety during this activity a single lane closure of Cudgen Road will be in place with the speed reduced to 40km/h for 200 metres either side of the work site. Traffic control will be in place and motorists may experience minor delays when travelling along Cudgen Road while the works are underway.

What to expect:

- Excavation works at the existing sewer main location.
- Works across Cudgen Road to connect into the hospital site.
- Single lane closures of Cudgen Road with traffic control in place to direct pedestrians and motorists safely.
- Reduced speed to 40km/h either side of the work location
- Access will be maintained however motorists may experience minor delays.
- Reinstatement of the footpath on the western side of Cudgen Road once works are completed.
- If the activity is delayed due to weather or unforeseen circumstances, it will take place or continue **Saturday 26 June**.

TWEED VALLEY HOSPITAL PROJECT JUNE 2021

Keeping you informed

We are committed to keeping the local community updated and informed about construction activities for the new Tweed Valley Hospital.

We encourage you to register to receive works notifications at tweedvalleyhospital@health.nsw.gov.au, or contact the project team for further information:
