

TWEED VALLEY HOSPITAL PROJECT

June 2023

Kingscliff Ambulance Station construction works | May 2023 to mid-2024

Work is about to commence on the Kingscliff Ambulance Station, collocated on the Tweed Valley Hospital site. Health Infrastructure has engaged FKG Group to build the new station.

Construction is expected to be completed by the middle of 2024, with operations commencing soon after.

Our on-site work hours will be between 7:00am to 6:00pm Monday to Friday and 8:00am to 1:00pm on Saturdays.

On the rare occasion that construction works are required to take place outside of general construction hours, notification will be provided to you prior to any work being undertaken.

How will the works affect you?

Like any construction site, there may be some noise and dust, however we will make every effort to keep this to a minimum and complete the works as efficiently as possible.

All construction activities are carried out with the health and safety of the local community as our top priority.

If required, traffic control staff will be onsite to direct traffic and ensure a safe working environment. For your safety, please follow the directions of traffic controllers at all times.

We will continue to stay in touch and update you of key project events as the new station progresses.

Thank you for your patience and understanding while we complete this important project for the Tweed Valley community.

Keeping you informed

If you would like to speak with a member of the project team directly, you can contact us any time:
